WATER CONSERVATION NOTICE

AFFECTED AREAS: NORTH KONA, HAWAI`I

Due to the completed repair of Keōpū Deepwell in North Kona, the Department of Water Supply is downgrading the water restriction to a voluntary conservation and requesting consumers in the affected areas to reduce your daily water usage by 10%. Listed are some ways to conserve water to reach the 10% goal:

- Wash full loads of laundry only.
- Wash full loads of dishes only.
- Serve drinking water only when requested.
- Do not let the faucets or shower run unnecessarily.
- When bathing, use water only to wet and rinse off.
- Do not fill the bathtub.
- Use a glass when brushing your teeth.
- Do not flush toilets unnecessarily.
- Use a broom instead of a water hose for cleaning.
- Use a spray nozzle on water hoses to reduce wasteful water use.
- Use drinking water wisely.
- Check your irrigation system and fix any broken sprinkler heads or reposition sprinkler heads so they are not watering non-landscaped areas.
- Check your irrigation system and timer so that you are not overwatering your lawns or plants.

All agricultural users should keep water usage to a minimum. Irrigate only at night from 8:00 p.m. to 6:00 a.m. This measure will reduce water loss due to evaporation, and minimize water system usage during peak demand.

For more information, please contact the Department at (808) 322-0600 during normal business hours of 7:00 a.m. to 3:30 p.m.
