NEWS RELEASE

Water Restriction Notice Issued for North Kona

Effective immediately, the Department of Water Supply (DWS), County of Hawai'i has implemented a mandatory **25 percent Water Restriction** for customers in the following areas:

AFFECTED AREAS: MAKALEI, KALAOA, KONA PALISADES, KEĀHOLE, PALAMANUI, KOHANAIKI, KALOKO, KALOKO MAUKA, HUALĀLAI; NORTH KONA, HAWAII

Water restriction measures are needed due to the failure of Hualālai Deepwell on Monday.

Meanwhile, the following areas in North Kona remain under a water conservation notice that calls for a voluntary 10 percent reduction in water use: **KAHALU'U, KEAUKOU, KAILUA-KONA, HONOKŌHAU, KEALAKEHE, KEAHUOLŪ, KEŌPŪ, HŌLUALOA, WAI'AHA.**

The 25% Water Restriction will preserve adequate water supplies and pressure to meet the community's drinking, cooking and hygiene needs. DWS will continue monitoring the water system and make necessary adjustments. You will be kept informed of any changes in water supplies.

Please use water wisely and sparingly. Customers should refrain from irrigation, washing cars, and other unnecessary water uses while the water restriction is in effect. Taking short showers, hand-washing dishes, fixing leaky toilets and turning off the faucet while brushing teeth are easy ways to reduce water use.

DWS has approved expedited purchase of replacement parts in efforts to return the Hualālai Deepwell back to service.

DWS stresses that water quality is not threatened by the loss of the well. Customers' water remains safe to consume and continues to meet or exceed federal drinking water regulations. Water filtration, boiling and other home purification practices are unnecessary.

For more water conservation tips, please visit www.hawaiiidws.org, call 961-8050 during normal business hours or email dws@hawaiiidws.org. Please call 961-8790 to report after-hours emergencies.

Mahalo for your cooperation and understanding while this temporary use restriction is in effect.
